EXPERIENCE

TheAgentic, Remote

Jul 2025 — Present

Senior Product Manager

- Spearhead UX and project management across 30+ AI products, coordinating 60+ developers across 50+ project micro-teams.
- Shipped 40+ projects from 0 to 1 and 15+ to production deployment, actively used across 80+ organizations and 1000+ users worldwide.
- Built internal PM automation pipeline using Claude Cowork and custom agent skills, compressing the client-docs-to-Linear-roadmap workflow by over 70%.
- Drive initial prospect calls and technical deep-dives to evaluate partner fit and product-market alignment alongside founders.
- Own TheAgentic's design language and brand identity end-to-end; established a RevOps pipeline in HubSpot for top-of-funnel data capture and deal generation.

TheAgentic, Remote

Sep 2024 — Jul 2025

Product Manager and Designer

- Crafted TheAgentic console UI end-to-end (10+ screens), bridging complex agentic backend processes to a usable frontend, used by 300+ users worldwide.
- Directed design and product on CortexOn, an open-source multi-agent AI system inspired by Manus and OpenAI Deep Research; achieved 450+ GitHub stars and 75+ forks.
- Shipped 3 co-products from concept to launch and orchestrated visual systems for TheAgentic and CortexOn brands; managed UX across 3 client engagements end-to-end.

ScaleGenAI, Remote

Feb 2023 — Sep 2024

Associate Product Designer

- Reworked platform UI end-to-end across 30+ screens to enable self-serve onboarding, driving a 34% increase in self-onboarding with no human guidance required.
- Built and developed 4 co-product websites using Figma and Framer.
- Owned 400+ prospect calls with 60%+ conversion rate to next-stage opportunities; spearheaded a 3-person sales operations micro-team for prospecting, segmentation, and mid-funnel ownership.
- Created the full visual system: logo, pitch decks, technical sales material, brochures, banners, and social marketing assets.
